CHAIRMAN'S **SPEECH**

Dr. Muhammad Amzad Khan

Physician, National Health Service, UK

E-mail: amzad@britishbanglahealthcare.com

British Bangla Healthcare (Pvt.) Ltd. is a healthcare support facility based in Bangladesh and performing on national and international platforms simultaneously. Our aim is to make Bangladesh the largest medical treatment hub in Asia. We prioritize talent and invest in upcoming generations to keep up with an ever-changing world yet ensure universal values and ethics remain at the core of what we do.

We aim to facilitate this by upgrading healthcare management systems using the latest advances in software technology and improving medical academia in Bangladesh by training students at international standards and providing lifelong support to build careers both in Bangladesh and abroad. Our team is made up of medical experts from British National Health Service (NHS) UK who are fully trained to managed all aspects of healthcare systems and guide both hospital infrastructure and operational functions.

In short, British Bangla Healthcare (Pvt.) Ltd. aims to build a world-standard healthcare system in Bangladesh which is efficient, affordable and transparent.

VISION:

Our vision is to make Bangladesh the largest medical hub in Asia through continuous innovation and development within the healthcare sector via appropriate global networking, quality control, affordability and best value for our business associates.

MISSION:

Our mission is to achieve an economic and social welfare return on our investment and efforts on both national and international platforms so that we can contribute to the development of Bangladesh's healthcare sector and hence introduce a new healthcare industry in Bangladesh.

OUR COMMITMENT:

- ✓ No Patient turned away.
- ✓ Access to modern medical facilities.
- ✓ Foster collaboration and innovation.
- ✓ Fast and Early diagnosis.
- ✓ Aftercare Service.
- ✓ Zero compromise on quality.
- ✓ Advanced integrated healthcare system.
- ✓ Practice of reporting and compliance in healthcare.
- ✓ Transparency of charges, treatment and outcome.
- ✓ Fully trained healthcare professionals.
- ✓ Reducing costs for affordable care.

OUR OPERATIONS

MEDICAL TOURISM

Medical tourism is one of the most demanding healthcare services in the world. BBH aims to accelerate the opportunity of medical tourism in Bangladesh by providing guidance on best treatment options and availability of relevant facilities inside and outside of national borders. One of our major contributions to the medical tourism is Second Medical Opinion (SMO). We therefore provide a one-stop healthcare solution facility which is a start to end consultation service for clientele healthcare queries.

MEDICAL EDUCATION

To achieve the best healthcare service, it must be run by the best medical practitioners. British Bangla Healthcare is committed to providing long term guidance to future doctors whether they are students in Bangladesh or abroad, so that they may achieve accreditation to their best potential and reduce bureaucratic time-sink.

MEDICAL RECRUITMENT

In order to raise standards and ensure our practitioners are fully compliant and satisfied with their roles we aim to work alongside the government for the employment of our doctors, nurses, health technicians and other allied healthcare professionals. To attain this, BBH will provide training at

international standards for medical and healthcare practitioners and recruit them in national and international hospitals. We are committed to maintaining professionalism and high standards among our registered practitioners.

HOSPITAL MANAGEMENT

British Bangla Healthcare has experts from leading healthcare systems such as the NHS-UK who have a plethora of experience in hospital management. We are able to guide hospital infrastructure and operational set up with precision planning, execution and supply. We also provide advanced digital reporting systems for efficient management along with software maintenance services.

BBH LEARNING ACADEMY

We have a specialized team lead by doctors currently working in the NHS-UK to help with the entire process of getting into medical training in the UK as well as guidance on completing different UK medical examinations including PLAB, MRCP, OET etc. We have a dedicated Medical Education e-learning portal with expert medical tutors work both onsite and virtually to help students prepare for all these examinations. We also offer other clinical skill courses for smooth transition of international medical graduates into clinical practice like NHS-UK Job Interview Preparation & NHS-UK hospital orientation course.
